

COOPER CROUSE-HINDS®

CG Series

COLOR-CODED CORD GRIPS

Rugged, compact,
watertight fittings,
color coded by
cable diameter
for quick and
easy identification.

Used with portable cords, these watertight fittings are designed to protect conductors from mechanical damage due to vibration and movement while sealing out oils, coolants, water, dust, etc. Typical applications include the wiring of machine tools, motors, transformers, food processing equipment, robotics, air conditioning units, illuminated signs, etc. The low-profile design is ideal for OEM applications that require close side-by-side mounting of multiple cord grips in tight spaces.

**COOPER** Crouse-Hinds

CG Series COLOR-CODED CORD GRIPS

APPLICATIONS

CG Series color-coded cord grips with neoprene bushings are for use with portable cords, including S, SO, STO, ST, SJ, SJT, SJTO, and SVO.

CG cord grips are installed to:

- provide a means for passing a cord into an enclosure
- form a watertight seal for cord
- provide pullout protection for cord, ensuring a secure connection

STANDARD MATERIALS/FINISHES

- Straight Body—electrogalvanized steel
- Angled Body—electrogalvanized malleable iron
- Nut—electrogalvanized steel
- Bushing—neoprene/natural
